Imbuing empathy and perspective
through experience and interaction design.

Lead Interaction Designer with 9 years' experience crafting intuitive, user-centric designs. Expert in UI principles, user research, and data analysis. Proficient in wireframing, prototyping, and usability testing.Passionate about leveraging emerging technologies to deliver cutting-edge solutions.

Experience

Laerdal Medical Lead Interaction designer

July 2020 - Present Bengaluru

As Lead Interaction Designer, I led the design project of Neonatal Resuscitation Program of American association of paediatrics for instructors to create courses assigned to studentsl oversee the design process for our products using SAFE Agile methodology. I create intuitive wireframes, user flows, and high-fidelity designs for medical software. Developed a design system for consistency, ensuring accurate implementation with the development team. Established design principles, conducted design review, usability testing, and maintained responsive and accessibility standards. Engaged in UX research & Data analysis, contributing insights to drive informed decisions. Mentor junior designers, fostering their growth. Other projects where I contribute are Certificate Site & VOICE (Laerdal Voice Service Platform)

Impelsys Sr. Interaction designer

March 2018 - June 2020 Bengaluru

As Sr. Interaction Designer, I led the design of an exam engine for instructors to create courses assigned to students. Additionally, contributed to ShopCPR, a project for American Heart Association, designing a system enabling medical professionals to take online courses efficiently.
